TIPS

From Frozen to Fabulous:

We have perfected the art of sealed-in freshness through our fresh-to-frozen process. This means you can keep your delicious creation frozen for up to 12 months and defrost at your convenience. The locked-in flavour and quality never cease to amaze. Follow these guidelines, and your customers will be guaranteed an exceptional experience with every indulgent mouthful.

MINI CREATIONS & WHOLE CAKES (Large: 12 Slices / Medium: 8 Slices)

- Remove the cake from all packaging, including the collar (where applicable), and place on a serving plate. Defrost at room temperature (20 °C). See product label for recommended thawing times. OR defrost covered 12 hours in the refrigerator (1-3 °C).
- Consume within 3 days.

HOT PUDDINGS

- Remove packaging while frozen by lifting the edge of the cup and tearing it off the pudding.
- Heat in microwave for approximately 30 – 40 seconds (depending on the power of microwave – see product specific label).
- TOP TIP – For best results, let the hot pudding defrost at room temperature for 10 minutes before microwaving! Volcano products should be heated until the sides are slightly soft and warm to the touch.
- For the best experience – do not overheat.
